+17056621342

Hi, I'm Nathan Noel de Tilly a 28 year old passionate Product Designer ready to find new opportunities to grow and make an impact on the Design world. I've been working as Product Designer at Seequent for a little over 3 years now, also worked freelance, and as a QA Tester for a couple years. I'm looking for a talented team to work with whom I can help with my skills and grow alongside. I love meeting new people from the industry, so please feel free to contact me!

Work Experience

UI/UX Designer

Seequent-Toronto, ON

June 2021 to Present

I originally started working on our app MX Deposit under the Minalytix team. Quickly in my employment, Minalytix was purchased by Seequent, upon the acquisition I was given the task to update our old app and make it look and feel like the other products and apps Seequent offers. For the last two years I've been working on MX Deposit 2.0, this is a huge graphical face lift. With this huge update, it allowed me to go through our old and dated practices and update them or add new features our users wanted.

- User Research
- Sketch Mockups
- Prototyping
- Iconography
- Wire Frames
- User Flows

QA Tester

Keywords Studios

April 2014 to Present

I work as a QA Game tester for VMC Keywords Studios. I've worked on a variety of different projects with many different teams. While working on a project I'm always taking notes on my findings, if I encounter any bugs, UX flaws, etc.. Near the end of my session, I'll fill out a detailed form for my team leads about my findings.

Web Designer

REPerformance-Sudbury, ON

February 2019 to April 2019

I worked as a freelance web designer to help create a new landing page for the company.

Education

UX & Product Design in Computer Science

Bitmaker Labs - Toronto, ON

September 2016 to April 2017
